

SAFETY COMPONENTS FABRIC TECHNOLOGIES INC.

A trusted leader in textile technology

FABRICS FOR COMMERCIAL AWNINGS, SHADE STRUCTURES,
TENTS, CANOPIES, COVERS, CUSHIONS, UMBRELLAS AND
OTHER OUTDOOR APPLICATIONS

FABRIC FEATURES/ADVANTAGES

WEATHERMAX® 80 | Super high strength and durability combine with long-term color retention to deliver a truly versatile outdoor fabric for a variety of applications. WeatherMAX 80 is the industry's most balanced and cost-effective fabric available for awnings, shade structures and other outdoor applications requiring outstanding durability, higher water repellence and excellent breathability.

WEATHERMAX LT | High strength and the same inherent fade-resistant properties found in our WeatherMAX 80 fabric, all packed into a true lighter weight fabric. The perfect choice for patio furniture covers, equestrian covers, cushions, umbrellas or other applications where lightweight and ease of packing offer an advantage.

WEATHERMAX FR | The proven performance of our innovative WeatherMAX 80 fabric combined with flame resistance properties that meet or exceed the most stringent requirements. WeatherMAX FR is ideally suited for awnings, tents or any outdoor application requiring resistance to heat and flames, long-term color retention and superior protection from the elements.

TECHNICAL INFORMATION

Made from solution-dyed SaturaMAX™ yarns, WeatherMAX solves the sagging and wetting problems associated with acrylics and the fading and mildew issues of solution-dyed polyesters. Our exclusive HydroMax finish delivers unsurpassed water repellency and mildew resistance, maintaining the fabric's natural breathability. Available in 24 colors, WeatherMAX FR is available for applications requiring flame resistance. See our website for technical and certification information.

COMPANY PROFILE

Safety Components Fabric Technologies Inc. (SCFTI) is a vertically integrated, multi-faceted manufacturer of high-performance technical fabrics. Located on 22 acres in Greenville, S.C., SCFTI's 800,000-square-foot facility contains all manufacturing, testing and warehousing functions.

Our patented signature outdoor fabric, WeatherMAX, has changed the fabric structure and awning market by providing a highly fade-resistant, long-lasting fabric that outperforms acrylic and solution-dyed polyester fabrics. SCFTI also manufactures technical fabrics for firefighter turnout gear, soft armor, airbags and other demanding end products.
